## IS STB (5041 OR 5045) SELF-INSTALL

## WIRELESS STB INSTALLATION FOR STREAMING USER

To ensure the successful installation of your IS STB, read and follow the step-by-step instructions below.

- 1. Do you have all the necessary equipment?
  - a. IS-5041 STB or IS-5045 STB
  - Remote Control (This remote control is already programmed to operate your STB. Instructions on how to program your remote to operate your TV and other devices are available from your service provider.)
  - c. HDMI Cable
  - d. Power Cord

- 2. Make sure your TV is turned off.
- 3. Connect the HDMI cable from the HDMI port on the back of the STB to the HDMI input on your TV.

4. Turn on your TV. Make sure that your TV is set to the proper input.

- 5. Plug one end of the STB power cord into the STB, and then the other end into the power outlet.
- 6. As the STB starts up, it will display the following message.

7. At this point, you are going to connect your new STB to your Wi-Fi access point. Press OK on the remote control to start the association process on the new STB. You will now see a list of available Wi-Fi access points. Select your home W-Fi network.
