Wi-Fi App Feature Breakdown:

Scrollable Quick Link Carousel:
Your Experience Hub
Swipe through easy-to-use tools like speed tests and parental controls right on the main screen to find what you need fast—no hunting required.

MyPrioritiesIQ Modes:
Managed Wi-Fi That Fits Your Day
Choose "Gaming Mode" for smooth play, "Work Mode" for reliable video calls, or "Entertainment Mode" for uninterrupted streaming.

Easy Self-Install & Onboarding
Set up your Wi-Fi in just a few steps, with clear instructions right in the app.

Real-Time Alerts & Performance Stats:
Stay Ahead
Get notifications if your Wi-Fi slows down, plus stats to keep it running smoothly.

People Profiles & Device Recognition:
Make It Personal
Create avatars for each family member and see every device on your network. Spot and block unknowns easily so you know who's online and to keep your Wi-Fi safe and secure.

Content Controls & Security:
Safe and Sound
Pause the internet for bedtime, filter out unsafe sites, and employ network level cybersecurity to block hackers to keep your crew safe online and your network protected.
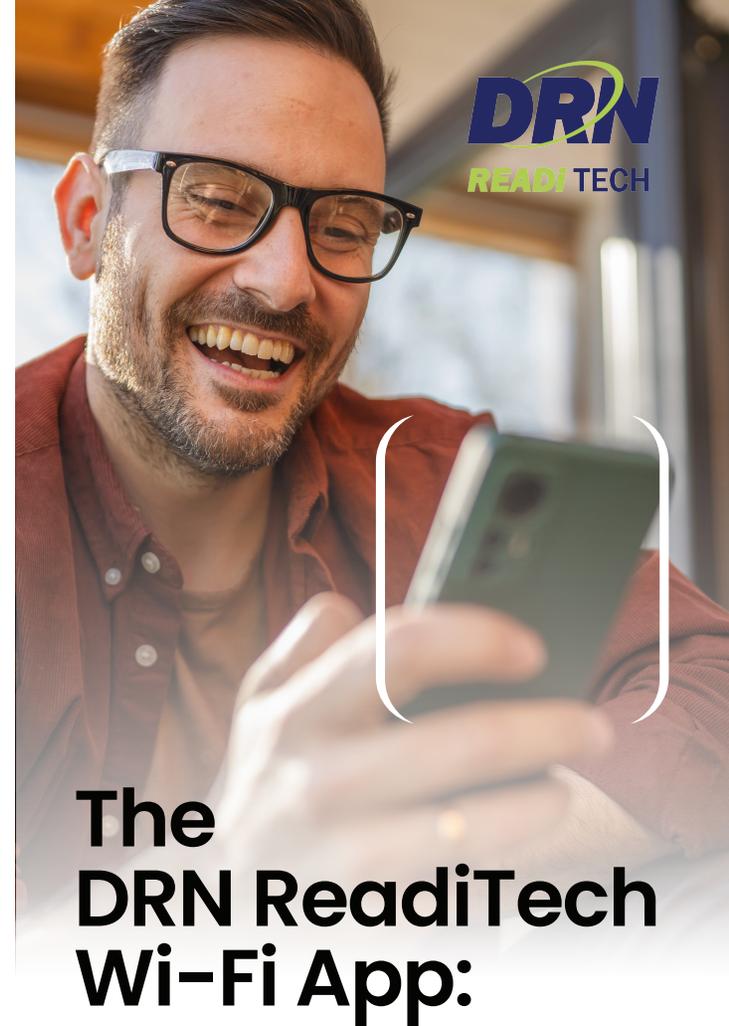

Built For You:

Family-Friendly Control:
Manage your Wi-Fi without needing a tech degree—it's as simple as checking your email.

Made for Everyone:
From kids to gamers to work-from-home parents, there's something for every family member.

Stress-Free Setup and Management:
Get started in minutes, customize your network with simple controls, and enjoy Wi-Fi that works the way you need it to.

Get started with the app

The app allows you to easily manage your home or small business Wi-Fi network within minutes. Download the app and take control of your Wi-Fi network today!
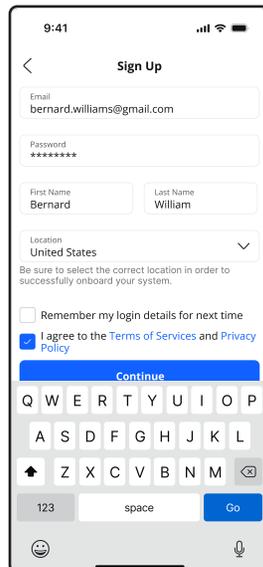

Step 1

Download the DRN ReadiTech Wi-FI app. You can search either the Apple App Store or the Google Play Store for DRN RT WIFI, then install it on your mobile device.

Step 2

Select 'Sign up' or 'Log in' to set up your system and access Wi-Fi controls and protection.

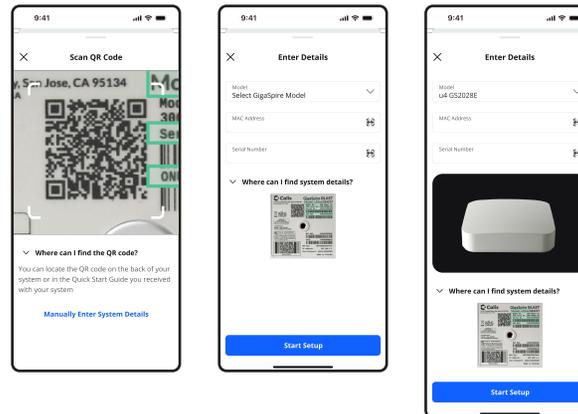

Step 3

Select 'Set Up a New System' or 'Replace an Existing System'

Step 4

Scan the QR code on your system, or enter the system details manually

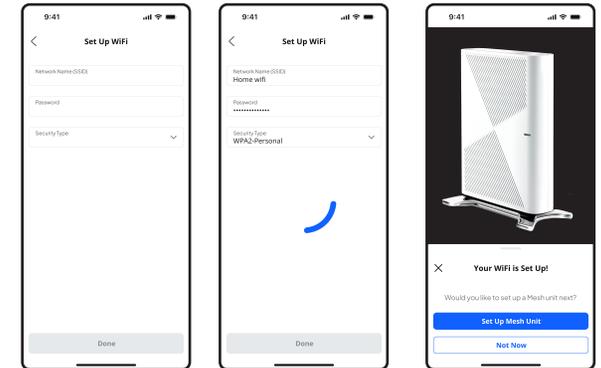

Step 5

Follow the next steps for new system set up.

Step 6

Now that your new system is set up, you can set up your Wi-Fi network.
